

Enterprising Women

Join us and be inspired by Dr. Cecilia Muldoon, avid oenophile, physicist, classic car fanatic and amateur ballerina!

Tuesday 27th February 2018 12:00 to 14:00

**Audrey Wood Seminar Room, Clarendon
Laboratory, Dept Physics**

Building on our previous talks, Cici Muldoon will be sharing lessons and insights from her journey from researcher to entrepreneur and CEO.

As usual we will be offering a networking lunch, from local social enterprises who combine making delicious food with doing good!
